

Career Exploration Essay

For this essay, you will be exploring a potential future career. You will need to have an introduction and conclusion regarding your chosen field. The body of the paper will take its own shape based upon the prompts listed below.

You need to include information that addresses each of the following prompts in your essay:

- What is your ideal career?
- What strengths do you possess that will help you excel at this career? What weaknesses will/might you have to overcome to excel?
- What is the median (middle) yearly pay for your career?
- Describe the work environment for your career.
- What is the minimum education required for your career? What are the benefits for continuing your education/training beyond the minimum requirements?
- What do people in your career do?
- What is the expected job outlook for your career?
